

Apprenticeships

Myth Busting

Apprenticeships are only available to 16-18 year olds

NOT TRUE

You have to be 16 and have finished Year 11 to start one - BUT there is no upper age limit on Apprenticeships

Apprentices are poorly paid

NOT TRUE

Apprentices have a minimum salary of £4.15 per hour – many degree apprenticeship have a starting salary of £20,000-£30,000

Apprenticeships are not as valued as FE/HE

NOT TRUE

An Apprenticeship is technical learning which can lead to nationally recognised qualifications equivalent to a degree

What is an apprenticeship?

A real job with a real employer

Work towards nationally recognised qualifications and training

Paid a salary

Contract of employment

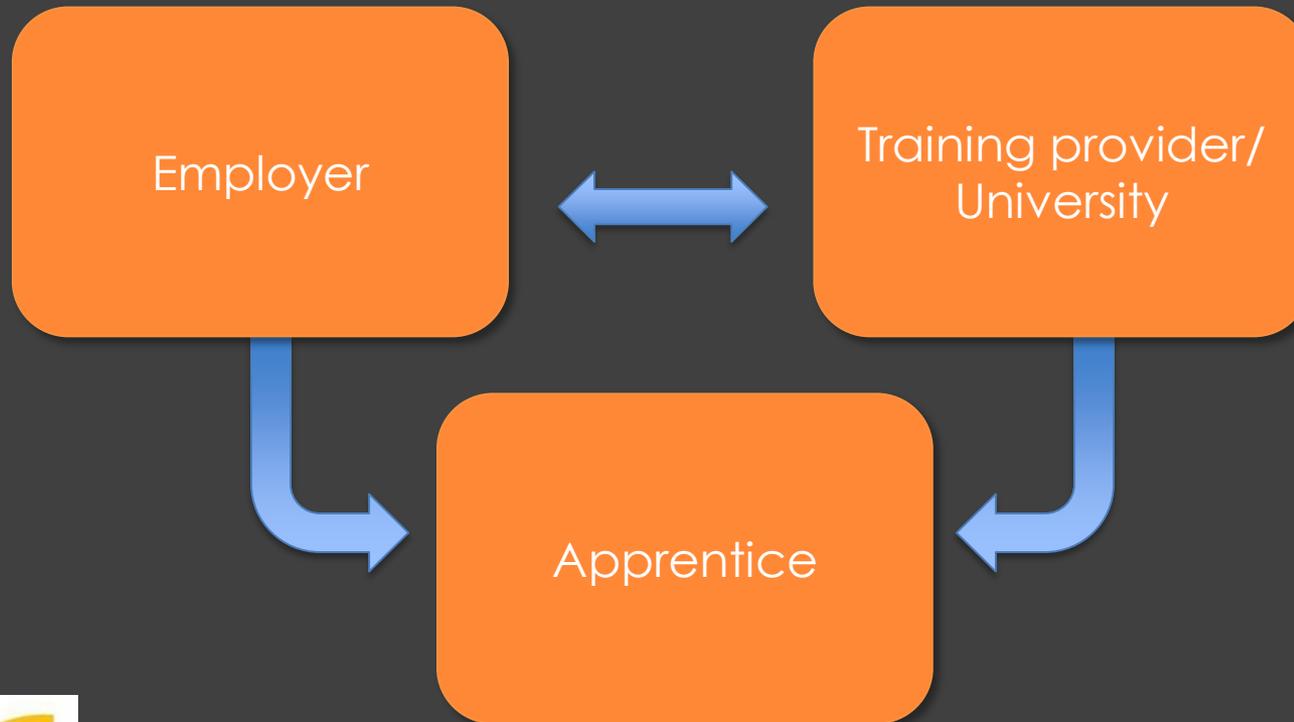

Same rights and responsibilities as other employees (holiday and sick pay)

Develop industry and transferable skills

“it gives you on the job training, helps you out and builds your confidence!”

How does an apprenticeship work?

How does an apprenticeship work?

The majority of time is spent in the workplace doing a job with the support of the employer and a tutor

There is also an element of 'off the job' training which usually takes place with a training provider or at a university (20%)

Employer committed to providing appropriate support and experiences to enable the apprentice to build their knowledge and skills

Duration of your apprenticeship

An Apprenticeship must last a minimum of 12 months

Higher and degree apprenticeships usually last 2 years and above

You will work for at least 30 hours per week

All training time is included within your paid hours

“there are many different types of apprenticeship, I’d definitely recommend them!”

Apprenticeship Levels

Intermediate Apprenticeship

Level 2

12 – 18 months

Equivalent to 5
GCSEs grade
